Playground Improvements Under Consideration

Almost 20 years have passed since the installation of the playground equipment in the park at 34 Waban Road. The Village Council has been discussing undertaking some improvements to the equipment at the park.

Replacing existing equipment with brand new items has proven to be beyond the financial means of the Village, as new equipment can run into tens of thousands of dollars. As a result, the Council has been discussing other options to improve what is available at the park. A quote was obtained from the original manufacturer to repair the existing equipment.

That quote was in the neighborhood of \$8000.00.

The mayor has suggested using Village service personnel to do some of the repair work to cut costs. Additional items that have been under discussion are (1) converting one of the tennis courts to a pickle ball court, (2) installing an outdoor concrete cornhole set similar to the one at Osborne Park, and (3) incorporating some musical/manipulative activity items geared for younger children.

The Council would love to receive input from the residents as to what kind of items you would like to see incorporated

Village Hall Update

This The Village of Timberlake has a true diamond in the rough. Our Village Hall, located on the lake, provides renters and their guests with amazing views of Lake Erie and all the beauty that it offers.

The Village Hall has received a new paint job. The Hall looks brighter and updated. Thank you to the Service Department, Steve, Brent, and Jim for a fabulous job. They worked around the scheduled events and finished the job in a timely manner.

There have been several changes to the contract that many of you might have used in the past and they are listed below. The contract and information pages can be found on the Timberlake website.

Since the Village hall has been painted ABSOLUTELY no decorations are permitted to be put on the walls. No nails, staples, or other fasteners may be used to fasten anything to any wall surface. Removable tape may be used on tables and glass surfaces only and must be removed following the event. If any damage is done to the paint due to this, the cost of repair will be deducted from your deposit.

A deposit of \$100 must be paid within 2 weeks of the inquiry in order to hold the reservation. If deposit is not received, the date will be freed up. Payment for the event must be paid 10 days prior to the event date. These are 2 different payments. The deposit is

held until after the event has taken place. Once the hall has been inspected and all rules and regulations have been met, the deposit will be returned. The deposit can not be used for the payment of the event.

Pavilion (as a stand alone rental) \$75 + \$50 deposit (includes restroom and kitchen privileges)

Stove Use - The stove will be lit by a service employee. It must be turned OFF by the renter. Valve to the left of stove is to be turned horizontal to be turned off. Failure to do this will result in \$50 deducted from deposit.

Alcohol Use - A police officer will be required. Police officers will begin duty 1/2 hour prior to event time. There is a 4-hour minimum (\$140.00) for police to work an event with alcohol.

All lights must be turned off and the floors must be vacuumed. The vacuum is located where the tables are stored.

How to Grow Vegetables From Scraps

by Cari @ Homesteading in Ohio

Whether you want to plant one thing or grow an entire garden, there are several foods from the grocery store that can be grown at home from scraps.

Onions, Garlic, Scallions, and Leeks

Cut off a section of the bulb at the end. Make sure the roots are still attached and place in a shallow dish of water. They will grow quickly, and you can eat the vegetable and regrow more when you are done.

Root Vegetables

Take the top where the stems and leaves are adjacent to the root and place them in water. Soon, you will have brand new

tops growing. Harvest new vegetables as they ripen off the top, or transplant the roots into the ground once they are ready.

Potatoes

Take a chunk with an 'eye' on it, or the dimpled areas from where the roots will be able to grow. For best results, the chunk should have two eyes on it. Cut potatoes in halves or quarters, let the chunks dry out overnight, and plant them eye-up so that the root can come out of the ground.

Leafy Greens

Leafy greens such as lettuce are incredibly useful and versatile for regrowing from scraps. Keep the rooting section and then place it into a container of water

and wait for the second wave of leaves to grow. You can even regrow leafy greens from individual leaves. Leafy greens typically continue to grow on the root, so you can take what you need and come back later.

The Work Session began with the Pledge of Allegiance and the Mayor's Prayer. All members of Council, Solicitor, Fiscal Officer, and Chief were present.

1. Parks and Playground Improvements

- f. Mulch would be four to six inches in some areas, and then we would level off (probably don't need 150 cubic yards).

Monthly Financials:

General Fund- ending balance through February 28, 2023 is \$228,474.14. Month to date revenue was \$42,199.89 vs expenditures of \$38,702.36 a net surplus of \$3,497.53.
